How to install

Install ready-to-paste package (Recommended)

- Installation guide: <https://www.mageplaza.com/install-magento-2-extension/>

How to upgrade

Step 1: Backup

Backup your Magento code, database before upgrading.

Step 2: Remove DeliveryTimeGraphQl folder

In case of customization, you should backup the customized files and modify in newer version.

Now you remove app/code/Mageplaza/DeliveryTimeGraphQl folder. In this step, you can copy override DeliveryTimeGraphQl folder but this may cause of compilation issue. That why you should remove it.

Step 3: Upload new version

Upload this package to Magento root directory

Run command line:

```
php bin/magento setup:upgrade
```

```
php bin/magento setup:static-content:deploy
```
